

# The Art of Sliabh Beagh

## ***Hello Crow***

*after a Sliabh Beagh Arts sculpture*

*Hello Crow, how bright the light  
That shines in your gimlet eye  
Set amongst furls of fine plumage  
Illustrated by the glittering voids  
Made in the blackened metal plate  
By the artist's sharp, cultured blade.*

*The plate sits upon an armature  
Of concrete and oxidised iron  
From the steel rods thrust  
Into the new quickened concrete.  
Now half-freed by carnage of time  
To create a perch just for you, Crow.*
